We are a southern regional band established in 1986. We have been playing the Southeast since then, and are currently booking in 6 states. Through the years, the band has dedicated itself to traditional bluegrass and bluegrass gospel music, featuring tight harmonies and hard driving instrumentals.

Please take the time to visit our websites listed above. There you will find complete band bio, promoter photos, song samples, and many concert photos from over the years. We also leave our performance schedule from previous years for reference value. One look and you will see we have played many high profile venues multiple times.

We have recorded 7 CD projects and a DVD in the last 24 years. We offer our recordings for sale on our web site and on www.cdbaby.com, as well as iTunes and other online retailers

As always, we're looking forward to a new year and are very interested in increasing our fan base and coverage by performing in new areas in 2010. At the left, you will find a list of promoters, and bluegrass professionals we have worked with over the years that we feel would be glad to make a recommendation.

We are now accepting bookings for the 2010-2011 seasons.

Our job is not done when we leave the stage. We feel part of our obligation to you is to meet and jam with the fans, during our weekend stay.
